FALL 1905

ALABAMA NURSERY COMPANY

INCORPORATED

HUNTSVILLE

ALABAMA

E. A. CHASE, President
H. S. CHASE, Treasurer
H. B. CHASE, Secretary

"CHASE'S ALABAMA GROWN"

To the Trade:

In last years "Red Book," we urgently requested correspondence from Nurserymen and Dealers (wholesale buyers) who have been, for years, familiar with "Chase's Red Book" but who are not as yet regular buyers of "Chase's Alabama Grown." The response was most pleasing to us and our thanks are hereby tendered to these new customers, while to our many old friends—customers, over and over again—we desire to express our thanks and appreciation for continued patronage.

Our shipments last season reached every state and territory in the Union, Montana and Vermont excepted, and we continue to receive only good reports of the behaviour of "Chase's Alabama Grown" in distant fields.

With the addition the past year of a new brick storage building on our own side track, we believe our plant is now one of the best equipped in the business and feel that we are in better shape than ever to serve our customers interests. We solicit your orders feeling that we can handle same to your entire satisfaction.

Yours very truly,

Alabama Nursery Company.

Huntsville, Ala. Sept, 1st 1915

References

For the convenience of those who do not know us, we refer to any of the Banks or business houses of Huntsville, or to the Commercial Agencies, or any of the leading nursery firms of the United States.

FALL 1905

Wholesale Price List

OF THE

ALABAMA NURSERY COMPANY

(INCORPORATED)

Huntsville, Alabama

We grow Nursery Stock to sell at WHOLESALE to the Trade. We hear complaints of Nurserymen sending TRADE LISTS to PLANTERS or parties not entitled to Trade Prices. If our mailing list includes such addresses it is an error that we will thank you to correct by advising us of parties name and address. We are constantly watching our mailing list and will appreciate it if you will help us to keep only the "elect" thereon.

ALL TELEGRAMS ARE TRANSMITTED BY TELEPHONE

FOR YOUR INFORMATION

We would suggest that parties with whom we have never had dealings, send us their orders in time for us to communicate with their references before they want stock shipped. We cannot accept orders from such parties without cash in advance, satisfactory security or references, and we mention this to avoid DELAY on rush orders during the packing season.

Each order is handled separately. After lifting, the trees are sent immediately to our large cellar where they are GRADED AND BUNCHED UNDER COVER, exposure is reduced to a minimum and customers may depend upon receiving stock fresh, sound, and in perfect condition.

Telegraphic orders usually filled same day they are received. Use Nurseryman's Telegraphic Code.

It is not our ambition to be a low-priced house, but we strive to grow stock that is FIRST-CLASS, TO GRADE ACCURATELY, to have the handling and packing as good AS THE BEST. We expect to sell on the market. We believe this is the way to hold trade.

Ten, hundred and thousand rates. We make three rates to apply as follows: On orders for 50 trees and over (up to 300) WHEN NOT LESS THAN TEN TREES OF A VARIETY, the hundred rate will be charged. On orders for 300 trees and over WHEN NOT LESS THAN TEN TREES OF A VARIETY, the Thousand rate will be charged. On all orders for less than 50 trees the Ten rate will be charged.

Substitution. We do not substitute unless instructed to do so. In case you instruct us to substitute we will use our best judgment in selecting varieties to cover the shortages, LABELING EVERYTHING TRUE TO NAME.

Guarantee of Genuineness

We exercise the greatest care to keep our varieties PURE and TRUE to name, and we hold ourselves in readiness at all times to replace, on proper proof, all stock that may prove otherwise, or refund the amount paid; but it is mutually agreed between the purchaser and ourselves, that we shall not at any time be liable for any amount greater than the original price of the goods.

Packing and Packing Cases

Our packing season begins October 1st, and continues through the winter until March 1st.

The cost of cases seven and one-half to nine feet long, thirty inches, is $2.50; twenty-four inches, $2.00; eighteen inches, $1.50. Bales, 25 cents to 75 cents. No charge for drayage.

Bales cost a higher rate of freight; so, as far as possible, we ship in cases.

Shipping

Please state how goods must be sent; whether by freight or express; also route. If no directions are given, we will ship as we think best serves customer's interests without assuming responsibility. THE RISK AND COST OF TRANSPORTATION BELONG TO PURCHASER.

Grades

We grade carefully; in some cases by caliper, others by height. When by both, the caliper must govern. The lower number is included, and the higher number excluded. For instance, in a grade from four to five feet, four feet trees are included, but five feet go into the next grade. If plump five feet trees are wanted, the order must be for five to six feet. When possible, we prefer to send samples to prospective customers.

Caution

We accept all orders upon the condition that they shall be void should any injury befall the stock, from frost, hail, storm, fire or other causes over which we have no control.

Claims

All claims must be made immediately on receipt of goods, or they will not be allowed.

Prices

The quotations in this list are for the WHOLESALE TRADE ONLY, and are subject to change without notice.

TIME—If possible, give us a few days notice before you want stock shipped. We will ship your goods on the day specified if possible.

CIPHER—For convenience in Telegraphing, a Cipher word in *Italic* type is given for each grade.

8 to 18 inches, light	*Pride*	8 00

The two year plants were cut back to ground last Spring and all wood is this seasons growth, smooth and handsome.

The plants described as 2 year heavy, carry 6 to 10 branches from the ground, the light plants carry from 3 to 6.

The 18 to 24 inch, and 12 to 18 inch heavy plants carry from 4 to 6 branches from the ground; the light plants in these grades from 2 to 4 branches. All single stems go into the smallest grade which we recommend for Transplanting only.

Budded Apple; grown on land that has never been in Apple, worked on the best seedlings, fine root system (here's where you get the "Whole Root" Apple so much discussed in recent years) and as clean and stocky as you can ask. We are so much pleased with this stock that we shall graft very few Apple if any, in future. These are strictly one year olds and as bright as new dollars.

NURSERYMEN'S SUPPLIES

Orders for Supplies—Knives, Box Straps, Lining Paper, Grafting Thread, Mule Skin Mittens, Labels, Raffia, Burlap, Needles, Twines, Spades, Shears, Etc., are shipped same day received. Orders for printed matter usually filled second or third day owing to amount of work necessary. Always send plain "copy" for printer.

Knives

The "Chase's Alabama Grown" Knives are especially made for us by one of the great cutlery manufacturers who has a reputation for making knives of *good quality*. The blades are hand hammered from Wardlow's English steel. For many years we have used knives from this maker and have found them satisfactory.

Grafting

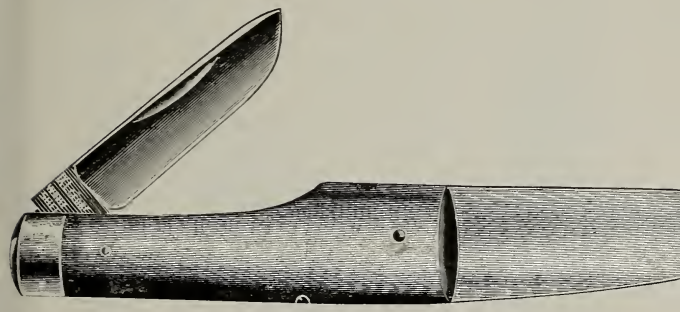
Cut ¾ Size

C. A. G. Grafter—Cocoa handle, pocket edition

Price each, postpaid	$ 0 25
Per dozen, Freight or Express	2 75
Per dozen, postpaid	3 00

KNIVES—(Continued)

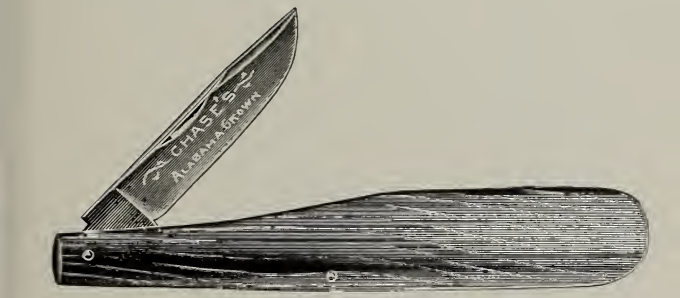
Budding



Cut ¾ Size

Wostenholm's I. X. L. Ivory Tip—The best budding knife we know of and strong enough for an all purpose knife

Price each, postpaid ..... $ 0 75
Per dozen, Freight or Express 8 00
Per dozen, postpaid 8 25



Cut ¾ Size

C. A. G. Budder—Having a demand for a pocket budding knife at a lower price than the I X L, we now carry in stock a knife with a razor steel blade, all wood (cocoa) handle, no metal bolsters, strong enough for a budding knife *but not strong enough* for an all purpose knife, the end of the handle is made thin forming a wedge for raising the bark.

Price each, postpaid ..... $ 0 35
Per dozen, Freight or Express 3 85
Per dozen, postpaid 4 00

KNIVES—(Continued)

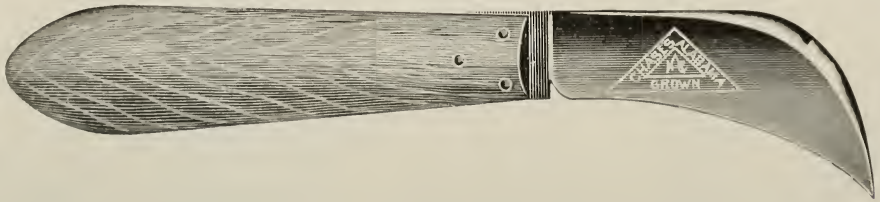
Budding

Cut Exact Size

Stationary Budder—Note shape, size and "hang" of blade, made for budding but not as convenient for the pocket as the others.

Price each, postpaid, $0 25 Per dozen, Freight or Express, $2 75 Per dozen, postpaid, $2 90

Pruning



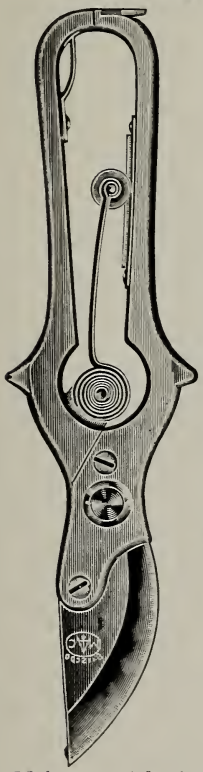
Cut ½ Size

C. A. G. Pruner—Stationary handle, full length 8 inches, length of blade 3 inches

Price each, postpaid, $0 30 Per dozen, Freight or Express, $2 75 Per dozen, postpaid, $3 20

Pruning Shears

For Making Cuttings for Propagation



Watch Spring, French, 8 inch

We offer shears that make *clean cuts* because we think you want that kind.

A sharp knife makes the *cleanest, best* cut, all "soft" wood cuttings are made with a sharp knife because there is no chance for a bruise, but cuttings from hard wood can be made with shears. If the shears bruise the bark or crush the wood the cuttings have a poor chance for life. The best shears make a cut approaching a knife cut.

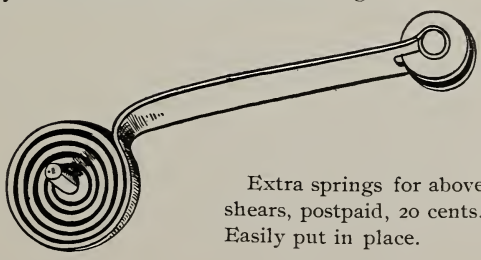
This shear makes a *clean cut.* The spring is quick and positive but not strong enough to tire operator. We began using this shear in 1890 and frequently have had a dozen pairs in use at one time, we thought of it as *the best*, the one trouble was, once in a while the spring would break and we could not find new springs nearer than France, but we now carry a stock of extra springs, price 20 cents each.

Price per pair, postpaid____$ 1 35
Price per dozen pairs, by Express or Freight_____ 14 50
Weight per dozen pairs, 7 lbs.

For Cutting Seedlings Back to the Bud, or Heavy Work—Same make as above, 9 inch, extra heavy.

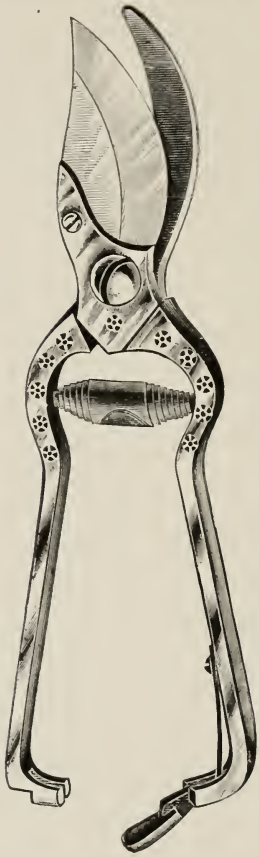
Price per pair, postpaid___$ 1 70
Price per dozen pairs by Express or Freight_____ 17 00
Weight per dozen pairs 11 lbs.

Makes a *quick clean cut*, strong enough for heavy work, we especially recommend this shear for "cutting back."



Extra springs for above shears, postpaid, 20 cents. Easily put in place.

PRUNING SHEARS—(Continued)



Ladies', **German, 6 inch,** full nickel plated. Volute spring

Price per pair, postpaid ..... $ 0 75
Price per dozen pairs, by Express or Freight 8 00
Weight per dozen pairs. 2¾ lbs.
Not large enough for general use, a *high grade*, beautifully finished shear, large enough for use about rose bushes or shrubs in the garden, or for light work.

Labels

Plain 3½ inches, wired, packed 1000 in package.
Per 1000, 75 cents. Per 5000, $3.50. Per 10000, $6.50
Weight 4 lbs per 1000.

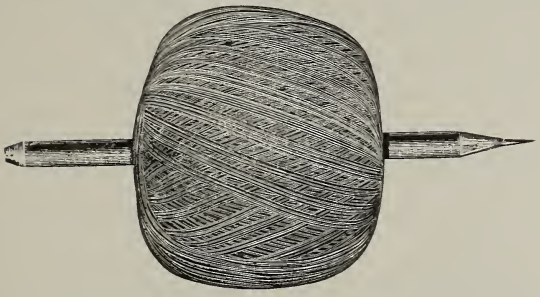
Raffia

Best grade. Fresh stock. Per pound ..... $ 0 14
100 pounds, per pound 12

Grafting Thread

GRAFTING THREAD put up in balls, three ply, firmly twisted and *loosely wound* so that it can be *soaked in boiling wax and used from the ball.*

Price per pound, not waxed.....$ 0 35
Same waxed ready for use, price per pound..... 40



This illustration shows a ball of our grafting thread with a pencil run through the hole in the center. Many nurserymen prefer to suspend the ball of grafting thread from a wire to be unwound as it is used, we prefer to keep the grafting thread in *warm water* while it is being used, as described below. This can be used either way.

To Keep Grafting Thread in Good Condition While Using

Put a ball of waxed grafting thread into a quart cup or pan (a tomato can will do,) fill it half full of water and arrange over a lighted lamp or small oil stove to *keep the water warm*, go ahead.

Grafting Wax for Bench Use and How to Wax Your Thread

One part (by weight) pure Beeswax; two parts (by weight) Tallow; four parts (by weight) Rosin. Put all in an open kettle and melt down. When boiling, stir thoroughly, throw in balls of thread *loosely wound*. When the balls sink to the bottom of kettle, the wax has gone through and they are ready to come out, when cool are ready for use. It will require two to four minutes for balls to sink.

Steel Box Straps

One inch wide, nine inches long, thin soft steel, strong enough to hold the heaviest box. You can drive an ordinary nail through it without punching. Packed in kegs and takes same freight rate as nails, or sixth class, ready for immediate shipment. About 2800 pieces in 100 pounds.

Less than 50 pounds, price per pound.....$ 0 06
50 pound kegs, price per keg..... 3 00
100 pound kegs, price per keg..... 5 50

Box Lining Paper

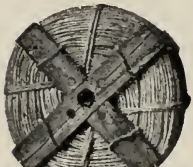
Helps keep out frost and heat, protects contents of box from drying winds. It is water proof, by this we mean that it will resist a good deal of moisture, but there is a limit.

This paper is put up in rolls 40 inches wide, about 100 pounds in a roll. Ten lineal feet weigh one pound, or one roll will line twenty-seven full size cases. We call it a good paper. You can buy paper for less money, but we think you will find this cheaper in the end.

Price, per pound ..... $ 0 05

Cordage, Twines, Etc.

FLAX SAIL TWINE for sewing burlap put up in skeins, per pound ..... $ 0 25



TEN-PLY TUBE CORD (breaking strength 127 pounds,) for light express bales, on reels of about 45 pounds each.

Per pound ..... $ 0 09

We cannot sell less than a reel.

TWO-PLY SISAL CORD (breaking strength 170 pounds) for heavy express bales, on reels of about 45 pounds each.

Per pound ..... $ 0 11

We cannot sell less than a reel.

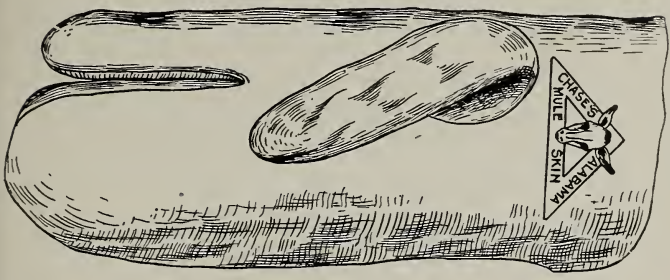
FOUR-PLY WOOL TWINE for tying trees in bundles, 300 ft. to pound, put up in balls weighing about one pound each, packed about 100 lbs in a bale.

In bale lots, per pound ..... $ 0 08

In less than bale lots, per pound 09

Last summer when we were figuring on our supply of twine for fall and winter's use we were offered a wool twine at one cent per pound less than we had expected to pay, we asked for a sample ball and measured it; one pound *measured 156 feet.* One pound of the kind we have been using *measured 301 feet.* We stuck to the old.

Mule Skin Mittens or Gloves



A Leather Mitten with separate sheath for forefinger, the other three fingers in one sheath. Not cumbersome, the best thing we know of for handling trees or rose bushes. We have found them a great help and for this reason offer them. Order a sample dozen and you will always want them during packing season. Made from Mule Skin, nearly as durable as Buck Skin, at one-fourth the cost. Alabama mules are tough. Single pair by mail, postpaid---$ 0 35
Per dozen, by Freight or Express---- 2 75

Burlap

Just good weight, ordinary burlap, 8 ounces to the yard, as cheap and more satisfactory than second hand burlap or bags.
40 inches wide, per yard----$0 05
Full piece of about 200 yards, per yard---- 04¾

Needles for Sewing Burlap

3½ and 5 inch, extra quality, per dozen----$ 0 40

Spades

D handle, double strap, tapered nursery spade, size of blade, 12¾x7½x5½; weight 9 pounds. Each---$ 1 75
Per dozen---- 20.00

This is the best all purpose nursery spade. Ames make. It is strapped full length of handle both back and front with steel straps, making it a first-class digging spade. It is sure to give satisfaction.

Packing Material

Sphagnum moss in bales, wire bound, Per 100 lbs. $ 1 60
Per ton 30 00

OFFICE SUPPLIES

Order Books

Your name and address printed, 100 orders to book, best quality heavy glazed paper, latest form, (sample sheet free for the asking.) Not less than 500.

Per 500, 5 books $1 75
Per 1000, 10 books 2 50

☞Always give plain copy of firm name and address so that no mistake in printing will occur.

Delivery Books

Bound in paper cover, ruled showing name of customer, P. O. Address, amount of order, how settled, etc., printed in copying ink.

For 24 accounts, per dozen, postpaid ..... $ 0 50
For 72 accounts, per dozen, " 75

Per 1000 ..... 1 90
Printed two sides, per 500 ..... 1 65
Per 1000 ..... 2 40
Size 2⅞x5¾ inch printed one side, per 500 ..... 1 60
Per 1000 ..... 2 15
Printed two sides, per 500 ..... 2 00
Per 1000 ..... 2 85

☞Always send copy showing how tags are to be printed.

Fumigation and Chemicals

The laws of many states require the fumigation of nursery stock with Hydrocyanic acid gas. The necessary equipment consists of an air tight chamber (box or house) a glazed earthenware vessel, a glass measure graduated to ounces (a plain tumbler, mark the sides with a file) and a set of accurate scales. The necessary chemicals are Cyanide of Potash (98 per cent.) and Sulphuric Acid (specific gravity 1.83.) Care should be taken to secure the 98 per cent. Cyanide otherwise an insufficient amount of gas would be generated and the fumigation prove ineffective. ("Commercial" Cyanide contains an average of 26.45 per cent. Cyanide of Potash.) Cyanide of Potash must be kept in an air tight package and so packed will keep indefinitely, it is a deadly poison and should not be left where it will fall into the hands of children or careless persons and should never be handled by a person having open sores, cuts or bruises upon his hands. The gas is colorless and if inhaled in quantity is fatal, smaller amounts induce headache or dizziness.

The best commercial grade of Sulphuric Acid should be procured. This acid should be kept in a glass or earthenware vessel tightly stopped with a glass or lead stopper.

The chief requisite for a fumigation house is that it should be air tight or gas proof.

The standard formula for fumigating each 100 cubic feet of space contained in the fumigating house is as follows:

1 oz. Cyanide of Potash (98 per cent.) 2 fluid oz. Sulphuric Acid. 4 fluid oz. of Water.

The glazed earthenware vessel should be somewhat larger than is necessary to hold the chemicals, a one or two gallon jar is perhaps the best container.

Fumigating. The trees, as dug and brought from the field should be placed in the fumigating house, care being taken to see that they are free from any considerable quantities of mud or dirt, the trees should not be fumigated when they are wet as it has been shown that in this condition they are likely to be injured by the gas. When the compartment is full of stock, close all openings except the door, place the jar on the floor near the middle of the room, pour in the required amount of water and then slowly pour in the acid. The Cyanide previously weighed and enclosed in a tight paper bag is now dropped into the jar and the operator leaves *immediately* and closes the door *tight*. The steps in this operation SHOULD NEVER BE VARIED. If water is poured into the acid a violent action takes place and may be the cause of injury to the operator. Enclosing the Cyanide in a paper bag makes it convenient and safe to handle and retards the generation of the gas for a moment after being dropped, thus allowing time to leave the room and close the door securely.

Keep the room closed for forty minutes, at the end of which time the door and window should be thrown open, care being taken to avoid the outward rush of gas. After fifteen minutes of airing the room may be safely entered and the stock removed, being now ready for packing or heeling in. After fumigation the contents of the jar should be buried.

Georgia State Board of Entomology advises Nurserymen to use Merck & Co's., Cyanide *when in original sealed packages.* See bulletin No. 15, pages 20–23.

Cyanide of Potash, (98 per cent.) Merck & Co's., in original sealed packages.

1 pound package, per pound.....$ 0 38

Cyanide of Potash is excluded from the mails, but can be shipped by Express or Freight.

Sulphuric Acid (Specific Gravity 1.83) large glass stopped bottles, securely packed in cases by the manufacturer ready for shipment.

Case No. 1, 15 pounds, 1 bottle, price per case.....$ 1 40
Case No. 2, 30 " 2 " " " " 2 40
Case No. 4, 60 " 4 " " " " 4 25

☞WE DO NOT OPEN CASES☜

Sulphuric Acid cannot be shipped by Express but can be shipped by Freight.

This page reserved for Chase's Tree Gauge,(a good thing we think,) but the manufacturers disappointed us in delivery and we cannot show cut in this issue.

A special descriptive circular will be mailed later.

TESTIMONIALS

OKLAHOMA, Oct. 27, '04—The car of trees received Friday night, unloaded Saturday, on the road only five days. Found the stock packed very carefully and opened up in fine condition. I wish to say it is one of the finest loads of trees I ever handled, everything showing that there was interest taken and much care displayed in the handling and grading, which I appreciate very much. When in need of more stock will surely feel that you should have the preference.

ILLINOIS, Nov. 3, '04—Enclosed find check $365.22 to balance account up-to-date. Well pleased with the stock and it is a pleasure to open your boxes. Can you supply me more cherry like those received.

ARKANSAS, Nov. 29, '04—We enclose N. Y., exchange $431.06 in payment of your invoice. Beg to say that the stock you shipped us reached us very shortly after you started it. Was in good condition. Invoice checked O. K. and the stock was well up to size. We wish to thank you for the nice stock shipped us. We take pleasure in placing orders with people like yourselves, from whom we feel sure we are going to get just what we order.

TENNESSEE, Nov. 10, '04 Find enclosed check $355.92 in full of account. Accept our thanks for your good packing.

TEXAS, Nov, 4, '04—We have decided to give you our order which find enclosed. (7000 peach.) From past experience we know that the "Chase" trees are all right.

MISSOURI, May 3, '05—Enclosed find Money Order for balance due you. Trees came in first-class shape, grade was fine. Expect to give you an order next spring. Out of the 600 Plum shipped me last year did not loose six trees.

IDAHO, Jan. 1, '05—The box of stock from you last fall came in fine shape. Want the enclosed list this spring.

TEXAS, Nov. 18, '04—Two boxes stock to hand yesterday. Although out over two weeks opened up in good condition, Well pleased with the trees which are nice stock, were well graded and well packed and very satisfactory indeed.

SOUTH CAROLINA, Feb. 9, '05—I have been buying fruit trees from you for years and I am pleased to say that you have always treated me right in every way. When I need trees you may rest assured that you will get the first chance.
